I just wanted to remind you that our demo is scheduled for Thursday, September 19th from 2:30-3:00 pm EST. It will be held via Zoom and we will be showing you our breakthrough solution for warming up inboxes so you can crush your quota. If you have any questions, please let me know.

Tomorrow at 2:30, you'll see why 51% of cold emails and invites sent through Outreach land in spam and how to ensure your emails get delivered to inboxes.

Voicemail

Good morning Amanda. This is Brian with Warmbox. My number is 555-555-5555. I'm calling to tell you about a new breakthrough product we developed that warms up inboxes. Hey Amanda, saw you're using Outreach. Calling because we're seeing that 51% of cold mails and invites sent through Outreach are landing in spam. So I was curious to know how you dealing with that. I'll shoot you and email. This is Brian with Warmbox. My number is 555-555-5555.

Email

Hi Amanda, hope all is well. I work for a company called Warmbox-- we help businesses increase email deliverability. I realized this is a great opportunity for us to help you.

To be brief -- we are a service that:

- Warms up inboxes.
- Works with Outlook, Gmail, Yahoo and even Sendgrid.
- Includes dashboard monitoring

Companies in your industry rely on us to get their emails delivered and I think ABC Inc. could definitely see the value in Warmbox as well.

I'd love the opportunity to share this in a bit more detail and hear your feedback. Are you available for 15 minutes sometime next week? Can't imagine a quick chat about increasing email deliverability would be a waste.

Email

Hey Amanda - How do you know cold emails and invites sent through Outreach aren't landing in spam?

ACME & BETA are using Warmbox to ensure emails/invites get delivered to the inbox. It involves a warm-up tool that raises your inbox reputation + increases email deliverability. Setup in 2min (Gmail - GSuite OAuth, Outlook 365) - no tech skills required.

Worth exploring in Q2/Q3?

Cold Call

I'd love to tell you about a breakthrough technology we've discovered that is helping inside sales reach more leads and close more deals. Do you have 15 mintutes Thursday afternoon so I can share this with you?

Not sure if you're bumping into this, but we're seeing that 51% of cold emails and invites sent through Outreach are landing in the spam box. So I was curious, how are going about avoiding spam filters? Do you use spam checkers, not really doing much or are you warming up inboxes?
